EXPERIENCE

BESTOFMINE   **Dubai, UAE**
Web Developer   *June 2022 – Present*
- Led a team of 4 to develop scalable Laravel + Vue.js web platforms, including SaaS solutions.
- Deployed Dockerized apps on Google Cloud, implemented CI/CD pipelines, Redis caching, and monetized APIs with Stripe and PayPal.

BESTOFMINE   **Dubai, UAE**
Junior Web Developer   *Oct 2019 – May 2022*
- Developed and maintained web apps, crafted responsive email templates from PSDs, and optimized frontend performance using HTML, CSS, and JavaScript.
- Improved server performance with Docker, Nginx, and Redis; implemented Git-based workflows for efficient team collaboration

DevsZone   **Dhaka, Bangladesh**
Web Developer Intern   *Feb 2019 – Aug 2019*
- Built a full-stack pharmacy management system independently, enhancing company operations
- Contributed to a 10% profit increase by automating and streamlining pharmacy processes

OPEN SOURCE PROJECTS

Vue 3 wave-audio-player
NPM: vue3-wave-audio-player   *Nov 2022*
- A Wave-like audio player built by me. Inspired by telegram audio message design. It can be used in websites that use vue 3 library. It has 200+ weekly downloads.

Javascript Emoji Picker
Contributor - Github: jmadler/emoji-picker   *Jul 2022*
- A vanilla JS emoji picker. It uses jQuery and bootstrap design. I have been a Contributor from 2022

EDUCATION

University of the People   **California, United States**
Bachelor of Science in Computer Science   *Aug 2025 - Present*

National Institute of Technology   **Dhaka, Bangladesh**
Diploma in Computer Science   *Jul 2019 - June 2023*
GPA: 3.41/4.00

FREELANCE & CONTRACT PROJECTS

ProHR   **ProSoft** - **Bangladesh**
Lead Developer   *Jan 2024*
- Developed a cloud-based HR/payroll platform with attendance tracking, ZKTeco terminal integration, and real-time syncing, bKash API integration.
- Built a Windows app in Python to automate device-cloud communication and support multi-branch operations.

Lernwelt – LMS   **Deutsch D1** - **Germany**
Web Developer   *Sep 2021 – May 2023*
- Developed a large-scale LMS for German schools with support for courses, exams, and resource sharing.
- Designed to save educators time, with public/private content sharing and a user-friendly UI.
- Implemented Stripe API and Paypal API for Course subscriptions and one time payments.
